OTHER COMMENTS\*\*\*\*\*

=====

The originally authorized use of water is described herein, however, the claimant has amended the use of water under this right. A change application has been filed (a17265) and has been approved. As part of the change application process, required proof of beneficial use must be made to the State Engineer on or before March 31, 2011.

The described place of use for this water right has not been mapped on the hydrographic survey maps. The exact location of the historic irrigation cannot be determined because the water use is no longer occurring at the heretofore location of the change application.
